Its Operations Apparently Are Checked by Revelations

in Washington. BY BROADAN WALL.

York, June 27 .- If the Wall Street community were the organized body that some have claimed, it probably would have long ago hired a celebrated detective with his dictagraphs to nail the band of speculative guerrillas which is operating against organized business in the hope of becoming rich by destroying values.

These guertillas apparently laid claim to fighting for the public interest, and are reported to have boasted of the aid of officials at Washington. Their

Mexico were current at the opening, and then denied by President Huerta himself.

The principal market for the Mexican stocks is in London, but the first preferred lost seven points here on sale of 100 shares, and the second preferred two. The situation regarding the company is much confused, and the effect on foreign markets, where the new issue of the \$30,000,000 6 per cent government loan is to be offered, undoubtedly will be bad. Southern Pacific was weak in sympathy. DRY GOODS MARKETS.

New York, June 2:... The primary dry goods market was generally quiet and steady. The only feature of interest was the steady demand for small quantities of staple goods for prompt delivery. Jobbers sent in a good many duplicates on all-worsted and cottonwarp serges for July-August delivery. Mills are so well sold ahead on the goods wanted that a large proportion of this business had to be declined.

REVIEW OF TRADE

[Special to The Times-Dispatch.]
New York, June 27.—Bradstreet tomorrow will say:
Business holds up remarkably well,
notwithstanding that the midsummer
season for inventorying is approaching
Crop returns as a whole are favorable,
especially as regards winter wheat,
cotton and corn; consumption of merchandise is heavy, stocks are light,
business on current account is larger
than seasonably normal, and trade in
pig iron has improved, thanks to very pig iron has improved, thanks to very low prices.
Some branches of the textile trades

Some branches of the textile trades feel the stimulus imparted by a relatively good demand for staple cotton goods, to which must be added the comparatively big business done in brown sheetings for Chinese account. It is becoming more and more evident that stocks are very short, and the wisdom of merchants who have so long stayed out of the market or purchased sparingly is being questioned for it is becoming certain that there will be a good deal of hunting desirable grades of goods wanted for distribution within the next few months. Industrial operations continue quite active, save in textile lines, partly because they are marking time, as it were, pending tariff changes, and partly because they are averse to taking on stocks unless they are certain of orders. The silk goods trade still is harrassed by strikes, which are being settled slowly. New business in finished steel is light, prices on sheets, wire products and rivets are somewhat weak, but there is more activity in pig iron at the expense of prices, while inquiries for rails have increased, and what is more important regarding the inquirjes for rails have increased, and what is more important regarding the general market for steel, consumption keeps up with jobbers decreasing.
Business fallures for the week ending June 26 were 260, which compares with 235 last week, and 239 a year

Sir Rufus Isaacs Resigns.

[Special Cable to The Times-Dispatch.]
London, June 26.—The British public learned to-day for the first time that Sir Rufus Isaacs, at present Attorney-General, has tendered his resignation to Premier Asquith and the latter has accepted it. The official announcement of Sir Rufus's resignation will be made early, next week. Sir John Simon, at present Solicitor-General, has been appointed to the office of Attorney-General, but as yet no successor has been named to fill the office of Solicitor-General.

Case Is Continued.

[Special to The Times-Dispatch.] Lynchburg, Va., June 27.—In the Corposation Court to-day the case against W. V. Adams, of Buckingham County, who is charged with forgery, was con tinued until July 7.
